

The Federal Communications Commission

Dear The Federal Communications Commission,

The Universal Service is, in reality, a TAX and should be abolished. It was not approved by the US Congress and therefore is wrong. You need to abolish this unfair and illegal TAX.

However, if you feel it necessary to unlawfully impose a TAX on consumers, I believe it would be wrong for the consumer to pay more for telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Byron King
